Petition to Oppose new Licence Application from Goring Gap Ltd

Organised by Tshepo Skwambane (76, Rowlands Road, BN11 3JU - 07561187153)

We the undersigned, object to the Licencing Application by Goring Gap Ltd. We believe the following issues relating to **Public Nuisance** may result if the licence is granted;

- **Noise pollution:** Loud music, the noise of general activity including shouting after a few drinks/intoxication, waste/recycling and goods delivery/collection noises travelling across the large, open space into surrounding residential areas (Sea Drive, St Malo's Close) disturbing residents, especially late at night keeping people awake.
- **Litter and waste:** Litter associated with the sale of food and drink being blown into surrounding green spaces creating an unclean/unpleasant environment and impacting wildlife.
- **Odour pollution:** Catering concessions creating food cooking smells and exhaust fume smells (and noise) from generators used to power them between 0800-2300. Objectionable smells will persist for significant durations interfering with the enjoyment of residents homes.
- **Increased vermin** including seagulls, rats and foxes present in the area attracted by additional litter/food scraps/catering waste
- **Light pollution:** Lighting needed to provision facilities, impacting local houses during winter time when light fades after 1600.

- **Increased anti-social behaviour:** Public intoxication, loitering, drug use may occur, especially late at night or during peak hours and low level disorder when guests leave.
- The proposed location is some considerable distance from any town centre and will therefore not be patrolled by the Police/PCSOs, so any drink related altercations will have to be **controlled by the staff** present.
- **Underage drinking:** Access to alcohol from 0800-2300 could lead to underage drinking, potentially resulting in intoxication, accidents, and risky behaviour.
- **Increased petty crime:** Opportunity theft, vandalism, and damage to local property might increase, particularly if security measures are inadequate.
